The Lacey collection has something for everyone, offering a beautiful contrast and melting the charm of olde world style with clean modern-day materials. It starts with a bold, unadorned rounded-arm styling. It finishes with avant-garde double shades made of decorative meshed screens and opal inner glass.

Theater Row pays homage to Thomas Edison with a vintage industrial bulb that is not only nostalgic but also very attractive. It is a perfect circle but tooled in an elegant way unlike any other item on the market. Alongside the exposed bulbs there is a central spotlight on the ceiling fittings. Available in two finishes; Imperial Silver and Western Bronze, Theater Row brings old New York elegance to lighting.

A modern take on 1970s fixtures, the Holloway collection of pendants is rich with design detail. The matte, textured shade contrasts beautifully with the spun metal profile and matching metal trim. The white, opal etched glass has a contemporary silhouette to soften the light while still allowing direct down light through the centre. The canopy is painted to match the shade.

A classic hanging pendant, Stewart is simple lighting done right. The clear glass bowl maximises light output and is available in two finishes, Brushed Nickel and Western Bronze. The sleek Wilkinson flush mount adds a contemporary/retro accent to your home. The simple, double ring pan frames the opal etched glass, which diffuses the light evenly. It brings a chic, designer touch to rooms with standard ceiling heights.

The Parkman collection is a period-inspired group of pendants and flush mounts featuring classic detailing taken to a modern scale. The largest option is an over-sized silhouette sure to make a dramatic statement. Group several pendants together of consistent or varying sizes to create an impactful installation where a chandelier might traditionally be placed.

These fittings are influenced by what were seen as functional and industrial lamps of the 1900's. Many featuring the use of Faraday style industrial lamps, they are ideal for use in restaurants, bars, kitchens and anywhere that suits a more heavy duty looking fitting. Most of the pendants come supplied with versatile drop rods or cords so that they are easily adjustable to suit most situations.

The style of the Provence is taken from French designs of the mid 1900s where they were commonly used to light tables in kitchens, cafés and bistros. Options include a rise and fall system, where the height can be easily changed in situ to suit a variety of applications. New to the collection is a single pendant, table lamp, floor lamp and wall light. The Provence is offered in Aged Brass, Old Bronze and Polished Nickel finishes.

A rustic contemporary look that gives a dramatic flair to your home, this design serves as a piece of art in itself. It features gorgeous butterscotch onyx shades that emit a romantic glow, and sweeping wrought iron metal bands that add visual interest. Onyx is a mottled quartz (natural stone) that takes a high polish. As the favourite medium for Greek and Roman sculptors and architects, onyx has become a cultural symbol of tradition and refined taste.

Inspired by the rich, rustic design of ranch ironwork, the Huntley collection is characterised as mountain luxe. The arms are cast to achieve superior quality and detail. The mouth-blown, powder ivory frit glass creates a delicate feathered detail, like a glowing candle. Supplied with two finial options – a simple disk or a drip cup detail which complements the bobèche. Finished in a dark brown, Oil Rubbed Bronze.

The wrought iron Saxon range is designed and manufactured by Elstead Lighting. Using a mixture of traditional and modern manufacturing methods, this medieval style family has decorative beaten metal panels to separate the candle-holders. Saxon is available in Matt Black or a hand patinated Black/Silver finish.

# QUOIZEL TIFFANY

## COLLECTIBLES

### Louis Comfort Tiffany

The use of stained glass has been around and admired for more than a 1000 years, where it was most commonly used on cathedrals and churches. However, one of the most famous designers in this field was Louis Comfort Tiffany who also developed lighting products featuring stained and art glass at his famous New York studios.

Tiffany himself had originally trained as an artist and later learnt the craft of glassmaking while working at several glasshouses in the Brooklyn area. After perfecting some of his own techniques for stained glass by making his own opalescent glass utilising the copper foil technique, he founded Tiffany Studios in 1879. At its peak, the then famous and highly successful company employed more than 300 artisans. Tiffany original objects are still highly regarded and collected all over the world.

### Tiffany by Quoizel

Today, the name Tiffany is synonymous with products featuring stained and art glass pieces, copper foiled together, and particularly light fittings that benefit the beauty that the electric light bulb does to these when lit. Quoizel provides a range of looks that capture the Tiffany spirit; from highly traditional and transitional styles to more contemporary interpretations sure to suit any modern-day décor.

Whether you are looking for deep jewel tones and intricate patterns to serve as a statement piece in your home or whether you seek a light, neutral palette that offers the beauty of stained glass as a subtle complement to your room décor, Quoizel has many Tiffany style art glass lamps and lighting fittings that will suit your needs perfectly.

## The Art of making Tiffany style lamps

The skilled artisans trace out the pattern from a template then hand cut the art glass.

Each piece of glass is then ground to fit the shape of the mosaic pattern required.

Each piece of art glass is then cleaned and copper foiled.

Flux is then applied to the copper foil and each mosaic piece is put into place within the fibre glass mould.

The shade is then soldered together on the inside with lead solder, and again on the outside to strengthen construction.

An authentic Bronze patina is applied to the solder, it is then hand waxed to protect the solder from oxidisation. It is then polished to give a lustrous finish.

### Exquisite investments of today – cherished heirlooms of tomorrow

Art glass can be more expensive than crystal glass. All Quoizel Tiffany collectibles are made of art glass and the shades in the Elstead collection have between 44 to 632 pieces. The average shade takes 80 hours to create by skilled artisans. Nothing adds colour to a room quite like Tiffany lighting.

### Taking care of Quoizel Tiffany

Never use chemicals to clean your art glass. Use a damp cloth only to remove any excess oil. Use linseed oil on the solder to maintain the lustre after cleaning.

This Arts and Crafts style features a pyramid shade with a stepped border for added visual interest. The classic geometric design includes art glass in shades of amber, cream and tan, accented with glass pieces in sapphire blue and rich green. The linear geometric details on the base makes it a perfect complement to the shade.
